# ATHLETICS: FISCAL MANAGEMENT

From 2017 through 2020 large investments were made to become Title IX compliant.

From 2020 onward, management adjusted financial operations related to the additional sports and operations have stabilized, with small surpluses being produced.

However, cash balances are deeply negative and are projective to decrease even further as unfunded salary and benefit increases are absorbed and inflationary pressures affect operations.

# ANNUAL COMPLIANCE TRAINING

# EXTRA BENEFITS

An extra benefit is any special arrangement by an institutional employee or a representative of the institution's athletic interests (including fans) to provide a student-athlete or the student-athlete's relative or friend a benefit not expressly authorized by the NCAA legislation.

Extra benefit regulations pertain to prospects as well.

# EXTRA BENEFITS

Per NCAA Rules, receipt by a student-athlete of an award, benefit, or expense allowance not authorized by NCAA legislation renders the student-athlete ineligible to compete while representing the institution in the sport for which the improper award, benefit, or expense was received.

If the student-athlete receives an extra benefit not authorized by NCAA legislation or an improper award or expense allowance in conjunction with competition that involves the use of overall athletic skill (e.g., “superstar” competition), the individual is ineligible for all sports

# EXTRA BENEFITS

The receipt of a benefit by a student-athlete or his or her friends that is not authorized by NCAA legislation is not a violation if it is demonstrated that the same general benefit is available to the institution's students, their relatives, and friends determined on a basis unrelated to athletics ability.
