Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Fayetteville State University Housing Foundation, LLC as of June 30, 2013, and the changes in its net position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Fayetteville State University Housing Foundation's internal control over financial reporting and compliance.

The report should be read and considered in its entirety.

Using the Annual Report

This annual report consists of a series of financial statements, Notes to the Financial Statements, and other information prepared in accordance with the Governmental Accounting Standards Board (GASB). The GASB establishes standards for external financial reporting and requires that financial statements be presented on a consolidated basis for the Housing Foundation as a whole. These standards were used in the preparation of this document. The statements are prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged. Comparative information for the prior fiscal year is also presented in the condensed financial statements.

The basic financial statements include the Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows. The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position are discussed in later sections of this discussion and analysis.

The Statement of Cash Flows provides information relative to the University's sources and uses of cash for operating activities, noncapital financing activities, capital and related financing activities, and investing activities. The statement provides a reconciliation of beginning cash balances to ending cash balances and is representative of the activity reported on the Statement of Revenue, Expenses, and Change in Net Position as adjusted for changes in the beginning and ending balance of noncash accounts on the Statement of Net Position.

The Notes to the Financial Statements should be read in conjunction with the financial statements. The Notes to the Financial Statements provide information regarding the significant accounting principles applied in the financial statements, authority for and

associated risk of deposits and investments, detailed information on deposits and investments, long-term liabilities, revenues, expenses, required information on insurance against losses, commitments and contingencies, and if necessary, a discussion of accounting changes, adjustments to prior periods, and events subsequent to the Housing Foundation's financial statement period. Overall, these Notes to the Financial Statements provide information to better understand details, risk, and uncertainties associated with amounts reported in the financial statements.

The Housing Foundation is a subsidiary of the Fayetteville State University Foundation, Inc. NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Fayetteville State University Housing Foundation, LLC is presented to assist in understanding the Housing Foundation's financial statements. The financial statements and notes are representations of the Housing Foundation's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and have been consistently applied in the preparation of the financial statements.

Pursuant to the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statement - and Management's Discussion and Analysis - for Public Colleges and Universities*, the full scope of the Housing Foundation's activities is considered to be a single business-type activity and accordingly, is reported within a single column in the basic financial statements.

Cash and Cash Equivalents

This classification includes cash on deposit with fiscal agents, and deposits held by the State Treasurer in the Short-Term Investment Fund. The Short-Term Investment Fund maintained by the State Treasurer has the general characteristics of a demand deposit account in that participants may deposit and withdraw cash at any time without prior notice or penalty.

Receivables

Receivables are recorded net of estimated uncollectible amounts.

Capital Assets

Capital assets are stated at cost at date of acquisition or fair value at date of donation in the case of gifts. The value of assets constructed includes all material direct and indirect construction costs. Interest costs incurred are capitalized during the period of construction.

The Corporation capitalizes assets that have a value or cost of \$5,000 or greater at the date of acquisition and an estimated useful life of more than one year except for intangible assets which are capitalized when the value or cost is \$100,000 or greater and internally generated software which is capitalized when the value or cost is \$1,000,000 or greater.

Depreciation

Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

Restricted Assets

Certain resources are reported as restricted assets because restriction on asset use change the nature or normal understanding of the availability of the asset. Resources that are not available for current operation and are reported as restricted include resources restricted or designated for the acquisition or construction of capital assets and resources legally segregated for the payment of principal and interest as required by debt covenants.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Noncurrent Long-Term Liabilities

Noncurrent long-term liabilities include principal amounts of bonds payable that will not be paid within the next fiscal year.

Revenues and Expense Recognition

The Housing Foundation classifies its revenues and expenses as operating or nonoperating in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Housing Foundation's principal ongoing operations. Operating revenues include activities that have characteristics of exchange transactions. Operating expenses are all expense transactions incurred other than those related to capital and noncapital financing or investing activities as defined by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions. Revenues from nonexchange transactions and State appropriations that represent subsidies or gifts to the Housing Foundation, as well as investment income, are considered nonoperating since these are either investing, capital, or noncapital financing activities. Capital contributions are presented separately after nonoperating revenues and expenses.

Basis of Accounting

The financial statements of the Housing Foundation are prepared using the economic resource measurement focus and the accrual basis of accounting by recognizing revenues when earned and expenses when an obligation has been incurred, regardless of the timing of the cash flows. Support that is restricted by the donor is reported as an increase in unrestricted net position if the restriction expires within the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in restricted net position depending on the nature of the restriction. When a restriction expires, restricted net position is reclassified to unrestricted net position.

Income Taxes

The Housing Foundation is a not-for-profit organization exempt from income taxes under Section 501c(3) of the Internal Revenue Code (IRC). The Housing Foundation has been determined not to be a private foundation within the meaning of Section 509(a) of the IRC. The Housing Foundation is a subsidiary of Fayetteville State University Foundation, Inc. and files a consolidated Federal information return. There was no unrelated business income for the years ended June 30, 2013.

On July 1, 2011, the Housing Foundation adopted the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles, with no cumulative effect adjustment required. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Housing Foundation has analyzed tax positions taken for filing with the Internal Revenue Service and all state jurisdictions where it operates. The Housing Foundation believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Housing Foundation's financial condition, results of operations or cash flows. Accordingly, the Housing Foundation has not recorded any reserves, or related accruals for interest and penalties for income tax positions at June 30, 2013.

The Housing Foundation is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Housing Foundation's policy is to classify income tax related interest and penalties in interest expense and other expenses, respectively.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Long-Lived Assets

Accounting for the Impairment or Disposal of Long-Lived Assets requires that long-lived assets be held and reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. As of June 30, 2013, management determined that no indicators of impairment existed.

NOTE 3 - NET POSITION

Net Investment in Capital Assets

Net Investment in Capital Assets represents the Housing Foundation's total investment in capital assets, net of outstanding debt obligations related to those capital assets. Restricted Net Position - Expendable

Expendable restricted net position includes resources for which the Housing Foundation is legally or contractually obligated to spend in accordance with restriction imposed by external parties.

Unrestricted Net Position

Unrestricted net position includes resources derived from unrestricted gifts and interest income.

NOTE 4 - DEPOSITS AND INVESTMENTS

US Bank holds these funds in the State Treasurer's Short-Term Investment Fund. NOTE 10 - DERIVATIVE INSTRUMENT

Type	Notional Amount	Change in Fair Value		Fair Value at June 30, 2013	
		Classification	Increase (decrease)	Classification	Asset (Liability)
Hedging Derivative					
Instrument Cash Flow		Deferred		Hedging	
Hedge: Pay fixed, receive variable interest rate swap	\$11,457,000	Outflow of Resources	\$ (256,434)	Derivative Liability	\$ (2,338,924)
Total Derivative Instruments			\$ (256,434)		\$ (2,338,924)

The hedging derivative instrument held at June 30, 2013 is as follows:

Type	Objective	Notional Amount	Effective Date	Maturity Date
Pay-fixed, receive variable interest rate swap	Hedge Cash flows for 2001 Bonds	\$ 11,457,000	10/1/2001	11/1/2033

Terms

Pay 3.45%, Receive 67% of 1-month USD-LIBOR-BBA

The fair value of the pay-fixed, receive-variable interest rate swap was estimated using the zero coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap.

Interest Rate Risk: The Foundation is exposed to interest rate risk on the interest rate swap. The fair value of this instrument is highly sensitive to interest rate changes. As the London Interbank Offered Rate (LIBOR) increases, the Foundation's net payment on the swap decreases.

Basis Risk: The Foundation is exposed to basis risk on the pay fixed interest rate swap because the variable-rate payments received by the Foundation on the hedging derivative is based on a deferent rate than the Foundation pays on its 2001 Series variable rate debt. As of June 30, 2013, the interest rate on the Foundation's pay-fixed interest rate swap is benchmarked to 67% of 1 month LIBOR, which is 0.13%. The variable-interest rate paid on the Foundation's debt is not benchmarked to a reference rate but is reset weekly by the remarketing agent based upon market conditions and the University's credit rating. At June 30, 2013 the interest rate upon the demand bond was 0.06%

Termination Risk: The Foundation or its counterparty may terminate the pay-fixed, receive-variable interest rate swap if the other party fails to perform under the terms of the contract.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Directors
Fayetteville State University Housing Foundation, LLC
Fayetteville, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Fayetteville State University Housing Foundation, LLC (a nonprofit organization), which comprise the statement of net position as of June 30, 2013, and the related statement of revenues, expenses, and changes in net position, and statement of cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated August 11, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fayetteville State University Housing Foundation, LLC's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fayetteville State University Housing Foundation, LLC's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

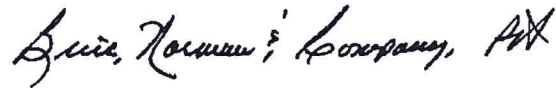

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fayetteville State University Housing Foundation, LLC's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
