

My name is Jermaine Cherry. I'm a sophomore and my major is Intelligence Studies.

I chose to come to Fayetteville State to study intelligence because I figured that you know Fayetteville first of all is a military town so what better school to come to to get an intelligent Studies degree and because of the connections that they've already provided for me.

As a matter of fact, every professor that I've had just about about 90% of them I still talk to to this day. Ranging from my freshman year up to now whether that's stopping in the office talking to them or seeking advice or whether I'm still taking classes with them. So, I'm very good friends with all of my professors.

There's a feel for everything here everything they wanna Do. I was able to pinpoint my major here because not every school has intelligence studies. Here by major pinpoints exactly what I want to do.

I'm proud to be a Bronco because number one we're an HBCU and two we we put people on notice that we're not here just to be another school but we're here for a reason and one of those reasons is to help other people. We're in an area where help is needed and we provide that help while we're still getting our degrees in the process.
